

Energy Analyst

Atlas Retail Energy (ARE) is seeking applications to fill a full-time position for an **Energy Analyst** in its newly expanded headquarters outside of Boston, MA. The role is ideal for professionals looking to gain experience in analytics, business operations and client service-related tasks within the energy industry. The position will work with and learn from senior-level energy advisors and directly contribute to helping commercial and industrial end-users of electricity and natural gas in deregulated markets develop and maintain their energy strategies.

Job Responsibilities

Energy Analysts are responsible for developing, executing, and maintaining energy management strategies for ARE clientele. Responsibilities include analyzing historical energy data and future market trends to develop a comprehensive energy management strategy that align with client business objectives. The execution phase includes bringing the strategy to market where various electricity and natural gas suppliers submit price proposals to supply a commodity to our client. Maintaining energy management strategies includes collaborating with Atlas Energy Advisors to provide client support services and research future risk mitigation scenarios. This is a full-time position and analysts are expected to work 40 hours a week over five days in the office.

Best Candidate

The ideal candidate should be composed, entrepreneurial and dependable. Candidates must show an interest in analytics business operations with a detail-oriented mindset. New hires will be exposed to all facets of the company including but not limited to: business operations, customer presentations, internal management meetings, sales strategies and market analytics. They must be eager to continuously learn new skills. The ever-changing energy industry requires someone who is fearless, has a "no quit" mentality and enjoys developing new solutions for the dynamic hurdles our clients face daily. Excellent Microsoft Excel (or programming language equivalent), communication, time management, presentation and teamwork skills are required.

Preferred Qualifications:

- 6-months minimum data analytics experience
- Proficient with either Microsoft Excel or programming language equivalent.
- Bachelor's degree in computer science, engineering, finance, or economics
- Proven success in overcoming rejections/failure
- Ability to perform under pressure
- Ability to problem solve with little to no guidance
- Customer Relationship Management Software (CRM) experience

What We Offer:

- A culture of purpose where we are invested in your happiness and career growth
- Tuition Reimbursement
- Health, Dental & Vision Insurance
- Life Insurance
- 401k Match
- Professional Sales Training
- Accelerated Management Courses

How to Apply

Serious applicants are invited to submit their resumes to HR@atlasretailenergy.com.

About Atlas Retail Energy

Formed in 2012, ARE has consistently reached new accomplishments each year to become one of the most respected energy management firms in the industry. ARE is a fully integrated boutique firm that provides large commercial and industrial users complete transparency into wholesale energy markets. We call this the "Atlas Eyesight," and it's what makes

us unique. Our wholesale presence gives our retail clients unprecedented access and visibility into factors affecting their energy budgets. Our goal is to take our customers' energy goals and transform a complex array of products, contracts and regulations into a clear and concise Energy Management Strategy. ARE is one of three companies in the Iapetus Holdings, LLC portfolio of companies, providing financial stability and career development opportunities.
